HOAG LAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. E. Hoagland, we find pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. If Thoroughpins or Cutter Perches are to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

DATES TO SEPTEMBER 14.

Washington News.

WASHINGTON, Sept. 13.—John Ross and A. J. Johnson, British and American Ministers for the adjustment of claims under the Oregon treaty, have pronounced an award of $650,000 in gold to be paid by the United States to the Hudson Bay and Puget Sound Companies in compensation for their rights in the territories west of the Rocky Mountains, irrespective of their claim for the navigation of the Columbia river.

The report of Admiral Hoff, concerning his investigation of the facts attending the execution of two Americans at Santiago de Cuba, has been sent to the State Department with a view to the foundation of a claim for damages.

It is officially stated that the design of recently placing many naval vessels in commission, was merely to prevent them from injury by lying idle.

Celebration of the Humboldt Centennial.

PHILADELPHIA, Sept. 13.—A procession of the Germania Societies and German Masons took place to-day. It proceeded to Fairmount, where the corner stone of the Humboldt Monument was laid, in conclusion of the ceremonies and festivities, held in the outskirts of the city.

NASHVILLE, Sept. 13.—The city is filling up with people to witness the centennial to-morrow. The Opera House was densely crowded to-night. The exercises were interesting, consisting of English and German speeches, and music by the orchestras and singing societies.

LOUISVILLE, Sept. 13.—The celebration of the Humboldt Centennial commenced to-night by a grand instrumental and vocal concert by the German singing societies and leading professional and amateur talent in the city.

PITTSBURG, Sept. 13.—Extensive preparations are being made for the Humboldt Centennial to-morrow. President Grant will arrive in the city at noon, and after a reception, be escorted to the grove.

Philadelphia Dispatch.

PHILADELPHIA, Sept. 13.—Parties charged with attempting the murder of Revenue officer Brooks, were up for further hearing to-day. No evidence of importance was produced. The parties are held to bail for further hearing. The doctors report that Brooks may die at any moment.

Ohio State Fair.

TOLEDO, Sept. 13.—The State Fair opened here to-day. The entries already number sixteen hundred—a large increase over the entries of the first day last year.

Maine Election.

PORTLAND, Sept. 13.—The election was very quiet. The vote will probably be smaller than last year, but parties are relatively nearly the same as then. The Hinckborn ticket takes off less than ten per cent of the Republican vote in the places heard from, which is not enough to defeat the election by the people.

PORTLAND, Sept. 13.—Midnight—Little interest was manifested in the election. One hundred towns, one-half in the State, give Chamberlain 20,727; Smith, 1,685; Hinckborn, 2,384. Compared with the vote of last year, this indicates a total vote of 85,000, of which Chamberlain should have 48,000; Smith, 35,000; Hinckborn, 5,000. So Chamberlain's majority should be about 8,000 over both, against 19,268 last year, in a total vote of 180,782. The Republicans last year carried fifteen of the sixteen counties; this year they lose one or two. They will probably elect twenty-seven out of the thirty-one Senators, although, on account of the split tickets, there may be no choice in a few cases, as it requires a majority to elect Senators. The Republicans lose a number of Representatives on account of the Hinckborn votes, as in the case of Representatives a plurality elects, but they retain a large majority in the House as far as heard from. The Hinckborn party have elected no candidate.

The Avondale Disaster.

PLYMOUTH, Pa., Sept. 13.—The late disaster at Avondale leaves seventy-three widows and 154 fatherless children. The number of the latter will be increased to nearly 200. The receipts of the treasurer from the relief funds are nearly $11,000.

WILKES BARRE, Pa. Sept. 13.—The Miners' Union unhesitatingly states that no one believes the fire in the Avondale Mine was the work of an incendiary. They regard the report as a subterfuge to turn the public mind from the responsibility resting on the railroad company.

CINCINNATI, Sept. 13.—Warren Kennedy, stationer on Vine street, near Fourth, committed suicide this evening by jumping out of a fourth story window, above his store.

Great Council of the Red Men.

ST. LOUIS, Sept. 13.—The Great Council of the Improved Order of Red Men holds its annual session here to-morrow. Representatives are present from fourteen States, including California. The order will celebrate the twentieth anniversary of the establishment of their order in Missouri by a grand procession and orations during the day, and a ball and banquet at night.

New York News.

NEW YORK, Sept. 13.—James McMann's stable at Hunter's Point was burned to-day with five valuable horses, including the famous mare "Cora," valued at $15,000. McMann's loss is $70,000. Another stable adjoining, with five more horses and two dwellings were also burned. Total loss $15,000.

Advices from Scranton state that the excitement is subsiding. The miners are at work except in Avondale where no labor will be done for a year.

The steamship *City of Antwerp* on which the Harvard Crew are passengers, had not been signalled at midnight.

SPRINGFIELD, Mass., Sept. 13.—The paper mill of John Carrol, on Mill river, was burned this morning. Loss $60,000.

The Red Stockings Coming to California.

CINCINNATI, Sept. 15.—The Red Stocking Base Ball Club's first nine start, accompanied by Hillon, for San Francisco to-day. Their names are as follows: Harry Wright, Captain of the Centre Field and Change Pitcher; Brainard, Pitcher; Allison, Catcher; Gould, 1st Base, Sweasey, 2d Base; Waterman, 3d Base; George Wright, Short stop Leonard left field; McVey, right field, Taylor, substitute. They play the first game on the recreation grounds at San Francisco, Saturday, September 25th.

St. Louis Dispatch

ST. LOUIS, Sept. 13.—A number of leading citizens and railroad men left this afternoon by the Pacific railroad, to celebrate the completion of the road between Atchison and Leavenworth, which is really an extension of the Pacific railroad.

ST. LOUIS, Sept. 14.—Perry Fuller who came here with Dan Voorhies, attorney to defend the suit against him by the First National Bank at Washington, is charged with being privy to the fraudulent passage through the New Orleans Custom House of 5,000 bags coffee. About $15,000 wort of goods shipped from New York, consigned to Hayes & Co., Ottawa, Kansas, have been attached on transit, by the Sheriff of the county, as the property of Perry Fuller, which he, however, denies; stating that Hayes was formerly his clerk. Voorhies sued out a writ of replevin, and while the bond was being made up, Fuller was arrested on a revenue charge. The *Times* of this city, asserts that the proceedings have their origin with some officers of the First National Bank of Little Rock, which failed some time ago. The United States Court held Fuller in $5,000 to appear to-morrow, which he could not give, but the matter was arranged without sending him to jail, by ex Governor Fletcher and other prominent citizens being personally responsible for his appearance.

Miscellaneous.

PORTLAND, Sept. 13.—Five more vessels have been towed in, which were dismasted in the late gale. The steamer *Cumberdge* has been towed to Bangor for repairs.

ALBANY, Sept. 13.—The First Presbyterian Missionary Chapel was burned this morning; loss $7,000.

LOUISVILLE, Sept. 13.—A few days since, near Stanford, Kentucky, a party of thirty armed negroes rescued from the officers a negro being conveyed to jail for an attempt to shoot another negro.

NEW YORK, Sept. 13.—Robert Barrien, in Westchester jail, charged with outraging his own daughter, committed suicide last night.

PITTSBURG, Sept. 13.—In the suit of J. R. O'Neil against the Pittsburg *Dispatch*, for libel, the case was dismissed by the Court. The jury failed to agree, standing nine for acquittal.

An incendiary fire this forenoon, at Wellsville, destroyed a whole block; loss, $20,000.

ATLANTA, Sept. 13.—Early on Sunday morning six one-story brick stores on Marietta street, and a large stone building on the corner of Marietta and Peach streets, were burned. Loss, $100,000; insurance, $50,000.

UTICA, Sept. 13.—A frame building at Watertown, undergoing repairs, fell this evening and burned five men. All were rescued but one is not expected to live.

PHILADELPHIA, Sept. 13.—All the Democratic candidates for city offices withdraw this morning, and it is reported an entire new ticket has been selected.

RICHMOND, Sept. 13.—Charles Whittlesey, a defeated Wells candidate for Congress in the Alexandria District, has been appointed by Gen. Canby Attorney General, vice Bowdon resigned.

BY ATLANTIC CABLE.

MADRID, Sept. 13.—The Commissioners are named to consider an alteration of the penal code for the Colonies, the administration of reforms and the abolition of slavery in Porto Rico.

The *Imperial* insists on the necessity of the speedy suppression of the Cuban insurrection.

Part of the reinforcements for Cuba have sailed from Barcelona. Other detachments will follow from Catalonia.

PARIS, Sept. 13.—General Prim has arrived here.

The tempest yesterday prostrated the telegraph wires, and communication in every direction was temporarily interrupted.

The Emperor's health is better to-day.

It is asserted the Empress will set out again on her voyage to the East.

General Prim, while at Vichey, had a conference with the Spanish Embassadors to England and France on the subject of communications received from Washington. It is rumored that the disposition of the people of the United States to interfere in the affairs of Cuba were denounced at this conference as an act of ingratitude to Spain, and the hope was expressed that Spain would reply energetically to these officious manifestations of the Americans.

LONDON, Sept. 13.—The *Daily News* contains another letter from William Howitt on the charge against Lord Byron. It says Lady Byron has condemned herself by a breach of an honorable silence. An irreparable wrong was done Byron by the destruction of the papers containing his justification, and a solution of the question is impossible, except on defective dynastic evidence.

Dr. Forbes Winslow, in a public communication on the same subject, holds that the theory of the mental aberration of Lady Byron cannot be maintained.

The *Times*, in an editorial commenting on the Emperor's illness and the publication of the *Senatus Consultum*, says the person of the Sovereign is of secondary importance. If personal government is ended it is matters little who is Emperor or Regent. The essential questions are: Who is Minister, and on what terms does he hold office? on what principle does he conduct the Administration? No one can govern except through a Cabinet and enjoying the confidence of a Minister of the people.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, Sept. 14.—The cowhiding affair which took place at the Occidental Hotel a week since, was settled this morning by a duel at Saucelito between the parties, Gardner and Smedbury. It appears that Smedbury had alluded to Gardner as a swindler and a blackleg. They met at the Cosmopolitan Hotel one evening, when a scuffle ensued and resulted in Gardiner challenging Smedbury, which challenge was refused on the ground that the challenger was no gentleman. A week since they met at the Occidental Hotel, when Gardiner struck Smedbury several blows in the face with a heavy cowhide. A challenge was accepted by Smedbury, and at 8 A. M. to-day the belligerents with their friend left on the sloop *Windsor* for Saucelito; where shots were exchanged, Smedbury receiving Gardner's ball in the hand, losing one finger and another badly hurt. Gardner is uninjured. Both parties are well known men. Warrants are out for their arrest.

The seventh annual exhibition of the Mechanics' Institute was inaugurated at the Pavilion today, with very interesting and imposing exercises and ceremonies, conducted in the presence of a large concourse of people. Irving H. Scott delivered the opening address. Hon. W. H. Seward was present.

The skeleton of a man was found in a swamp at Langford's lake, supposed to be the body of Capt. Baker, a Lower river miner. His clothes were found hidden under a fallen tree, with two bullet holes through the breast of the vest. He is said to have had forty or fifty dollars in gold dust with him. No clue has been found to the murderers.

SEATTLE, Sept. 13.—The U. S. District Court convened at Port Townsend on Monday last. Two cases of murder were on the docket. Young, indicted for killing Aiken, and Watts for killing Hibbard, on San Juan Island. Young was convicted on Thursday of both cases and sentenced to ten years imprisonment. Watts' case has been continued.

The steamer *Gussie Telfair* sailed for Portland this morning.

It is reported that gold has been discovered in paying quantities on Sultan river, about sixty miles north of this place. Gold and silver mines have also been discovered in the vicinity of the Snoqualmie pass. Parties are now out prospecting both these localities.

The Hastings Case.

The Democrats have elected a majority of the Legislature in California simply by keeping up a hideous din on that old Chinese gong, which is the sole remaining relic of their political stock in trade. But since the election the Democratic leaders frankly confess the humbug. The Sacramento *Union* has the following article on the subject:

In comparatively when the wine's in the truth comes out—so said the taciturn old Spartans, and they used to get just a little "elevated" in order to enter the region of outspoken frankness. In like manner the fuddle of the late triumph makes our Democratic friends communicative; they confess over their cups that they have won by sheer humbug. Most not the faithful rank and file have been somewhat astonished at the justification on Th

WEDNESDAY MORNING SEPT 15 1869

Alarming Tendencies of the Present Times

Is coming on the profound principles of political economy which are enunciated by such journals as the *Free* of Salem the *Herald* of Portland and the *Enterprise* of Oregon City we have often been brought to the conclusion that the industrial policy of our State is taking a wrong direction The tendency of these times as every observer knows is to start great enterprises, to develop great industrial projects, and to build up great and powerful corporations We find these combinations of wealthy individuals continually enlarging their sphere of operations adopting new improvements for saving labor and crowding poor men out of employment Reasoning as we before observed on the principles laid down by the writers mentioned we find that the tendency of things in this direction is truly alarming Look at our steamboat companies They have usurped the whole business of boating on our rivers By the aid of capital they have employed steam to do their work, and poor men have no longer a chance to compete with them Row boats and scows have been driven from our streams, and the steam engine—that engine which furnishes cheap labor to the capitalist—is employed to do the work which otherwise would be performed at good wages by the sinewy arms of happy laboring men Drive these "grinding monopolies, these "soulless corporations" from our rivers, and who can estimate how vast a number of laboring men would find employment at the oar in the navigation of our streams, and the transportation of goods, wares and merchandize? But as things now are a comparative handful of men direct the whole work Capital has here crowded intelligent labor out of employment, and set the senseless steam engine, more senseless than the Chinaman and working far cheaper, at an occupation which belongs legitimately to the white laborers of this country, who came out here when Oregon was a wilderness and planted civilization on the banks of our noble rivers Nor is the evil to stop here Further encroachments on the rights of our laboring classes are already in progress Capital is aggressive, and is now at work before our very eyes building railroads which will throw teamsters out of employment, or compel them to work at starvation prices It is well known that many persons in the upper Willamet valley find lucrative employment during half the year in hauling goods from this city to supply country merchants When Ben Holladay gets his railroad completed to Eugene there occupation will be gone. He will monopolize the business Horses and wagons now profitably employed, will be forced to stand idle. Under the cry of cheap transportation, which is communally made in the interest of bloated wealth, this business is being taken out of the hands of the people by a few rich men who will have the exclusive enjoyment of its profits The tendency is thus all the time toward special privileges The rich are made richer and the poor poorer The wagoners of the upper Willamet, once joyous and prosperous, will soon experience the cramps and sad woes of poverty, and have their little ones crying around their knees for bread. The picture is too sorrowful to dwell upon, but it is just what the times are tending to, unless the people arouse to their danger and stop the encroachments of capital on the domain of labor This sophistry of cheap transportation, which is but a form of cheap labor, is fraught with the greatest woes to the country.

An event once happened at a portage on one of our rivers not an immense distance from where we are now sitting, which showed that those interested in this particular subject had a true comprehension of its importance For years they had been enjoying a lucrative business in hauling goods in wagons around, the portage. But finally some capitalists conceived the idea of building a railway to do the business. The wagoners at once perceived the danger, called a meeting, and took steps to prevent the unwarrantable interference They did their best, but failed. A bloated monopoly triumphed, and a large number of men lost their employment. And to this day the monopoly retains possession. This event happened before the *Herald* was started, so there was no paper to take the part of the poor wagoners, and oppose the encroachments of capitalists upon them.

The growing evil we speak of is insinuating itself into every department of industry The lordly owner of broad acres in our own fertile valleys is not satisfied with the old methods of labor under which the poor workingman had a chance to provide for his family His study has been and still is how to cheapen labor. Accordingly he has discarded the time-honored usages and adopted a new policy. In these times, instead of seeing the laborer following contentedly in the furrow and receiving wages adequate for the support of his family, we find that the proprietor of the estate has purchased a gang-plow and hireshis boy at half price to drive. By the course he gets two or three times as much plowing done each day for the same money that he once paid for one-half or one-third of the work Again, when it comes to harvesting a similar policy is adopted Instead of paying good wages for men with sickles or cradles to cut his grain he takes advantage of his position as a capitalist to buy a reaping machine, with which he cuts his harvest in a twinkling And next instead of threshing his grain with a flail so as to give labor a chance, he posts off and buys a threshing machine for one thousand dollars, which in one day will do the work of fifty men. By these operations he is enabled to save money in planting, harvesting and threshing his crops, but he saves it at the expense of the poor man Cheap labor is the cry of the landed proprietor and he therefore buys machinery which will do his work at the least cost, and the poor man is left to support his family as best he can Capital has employed machinery at little cost to work in a thousand occupations which might be filled with intelligent laborers, and still the process of cheapening labor goes on Is it not enough to make every intelligent person shudder to think of the consequences?

Look at the various processes now in use for manufacturing all kinds of goods What are they but devices for oppressing the laboring poor? Capitalists are now able by the use of these methods to manufacture goods at half their former cost New inventions and new processes are constantly coming into use to further cheapen manufactures It may be that the employment of the Chinaman in connection with labor saving machinery will still further reduce the cost of pro manufactured goods For years the tendency has been to cheapen the operations of labor and in whatever way and by whatever means this is brought about, the result must be the same This miserable sophism of cheap production is developing itself in a thousand ways and should be resisted by every one who has at heart the good of his country The man who would introduce Chinamen into his factory for the purpose of reducing the cost of manufacturing blankets should be regarded as an enemy of the people quite as much as the man who would invent a new loom to cheapen their manufacture How long will the people be content to play into the hands of the rich in these things?

We might continue at much greater length this argument on the side of the people against the monopolists an argument based on the principles laid down by some of our contemporaries of the press but the subject is endless and what we have written will we trust tend to indicate to our laboring classes the danger that besets them The subject is one which will grow upon every mind and our highest aim will be accomplished if we only succeed in directing the attention of the masses to the realities of the situation

In General

The 'commercial editor of the *Herald* still imagines that he has something to say about the iron market He is of opinion that if the Oswego Company are now selling their iron at $42 50 they must have reduced the price "within two weeks" This may possibly be the case, and possibly the 'commercial editor may have heard that markets sometimes vary in that space of time He says our article was written in the interest of the Company It was not written in the interest of anybody but was a precise statement of facts Further, he says that his remarks on Saturday were in the main correct Let us see His stated that the Company were asking $45 for their iron at their works when they were asking but $42 50 He stated that foundrymen here go to San Francisco, buy Oregon iron and ship it back for less money than they would have to pay the Company for it here, when it is a fact that no Oregon iron has been shipped back from San Francisco He stated that the Oswego Company were losing twelve dollars a ton on their iron by this policy, when it is hardly probable that, being business men, they would voluntarily subject themselves to such loss His remarks indicate that he has never heard anything about the different qualities of iron, and that he supposes all iron to be of the same quality and of the same value In a patronizing way he reminds us that while we learn our commercial news sitting in our office, he moves around among the business community and obtains his from the merchants We have only to say that we can get more commercial information by staying in than he can by going out,—judging from his success thus far

At the National Temperance Convention held at Chicago about two weeks since, Rev. Dr Hadfield protested against the organization of a political temperance party He said "it was always painful to him to differ in judgment with friends for whose heads and hearts he had a great respect But it was his conviction that the friends of temperance were in danger of committing a blunder worse than a crime. He was in doubt of this movement because he was convinced that what they wanted was to imbue the minds of the people with the righteousness and necessity of prohibitory legislation Everything that had been already gained in that direction had been gained without a distinct political organization, and wherever the friends of temperance had ventured on that, they had imperilled their cause and inflicted an almost irreparable injury upon it. They would have no sharp censures from the Democratic press if they formed a new party, it was what the Democrats wanted them to do. God save him from taking counsel of his enemies, and walking blindfold into the snare they spread at his feet. There was a strong feeling in the Convention that nothing could be gained for temperance by weakening the great party which has never hesitated to place itself at the head of such reforms as could be legitimately connected with politics.

It is stated that our Government is about to build ten wooden vessels, which are to be so constructed as to employ steam or sails equally well. One of the main objects is doubtless to save expense in the particular of fuel In this matter we are following the practice of the European powers, all of which have many vessels of this kind, that never use their engines except when encountering adverse winds or desiring great speed Most of our wooden naval vessels built during the war were so crowded with machinery as to be utterly incapable of carrying coal for a lengthened cruise, while they were not calculated for using their sails, if necessary, exclusively. In the English navy even the immense ironclads are expected to sail as well as steam What is called the Flying Squadron, now on a cruise round the world, of which several are ironclads, is only allowed to use the engines in case of any severe weather, or when the vessels are on a lee shore

WHEAT AND FLOUR MARKET AT SAN FRANCISCO —By the arrival of the *Orpheus* we have the Times of the 9th in which we find the following matters of interest concerning the wheat and flour market During the week preceding the local millers had reduced their quotations for extra and superfine grades of flour 12½ cents Shipping extras quotable at $5@5 50 Bakers' and Family extras, $5 62½@5 85 Occasional extras ranged from $5 50 to $6 During the week 1 900 bbls Oregon brands arrived and were taken for local use at use at extreme figures

The market still presents great activity as regards grain charters, and rates of freight continue to rule high The range for Liverpool £3@£3 10s 3d and for Cork at £3 12s 6d Within the range of the above figures four ships engagements have been effected since the last mail to Liverpool and Cork eleven for the former and three for the latter port of these ten arrived during the week The fresh arrivals have been of the large aggregating in registered tonnage 16 022 tons Three of the ships, eight barks and a brig

The exports for this week have been quit heavy being principally in wheat, amounting to 218 881 ctls to this all a small shipment of 1 300 ctls to Ctl Am and 4 600 to British ports. The exports of flour aggregate 6,153 bbls being nearly all for China

The engagements to load amount to an aggregate of twenty-eight vessels, to carry 29 677 tons of which twenty five vessels, carrying 27 430 tons are to go to British ports.

LATE FIRE—ORIGIN—LOSSES.—The supposition at first prevailing that the fire of Monday night, originated in the rear room of the building occupied by Mr McQuillan proves to have been erroneous It very clearly appears to have been communicated by means of a defective flue in the house occupied by Mr Graber Salem to the partition wall between the two houses close to the back of both. There are four stovepipes entering the said flue two from each building but they are all put in securely and evidently had no part in leading to the fire There are several places in the chimney where the spaces between the bricks which should be filled with mortar are entirely open Through the fill over the side next and close to the papered wall a spark or full blaze passed and fired the paper near the chamber floor The injury to the buildings was confined to the upper story and repairs to the 2 70 cost from three to five hundred dollars Mr Graber's loss was insured on his stock $4,000. We were also told he had on hand about $6 000 worth of goods. Yesterday he could find only a comparatively small part of them His loss will probably come up fully to the insurance. Mr McQuillan was insured for $1,000 on his stock He lost, as near as can be ascertained, fully that amount in goods, as many valuable articles, furniture, etc were either carried off or damaged in the removal Besides this he lost a considerable part of his household furniture, making his entire loss probably not less than $1,500 The buildings were not insured

FIRE WARDENS.—Each time that a fire occurs necessitating the removal of goods from stores the cry is raised that Fire Wardens are wanted And each time we have such a fire the need of such officers is made most apparent. When Mr. Levy's store was burned the firemen labored night and day, devoted their exclusive attention to saving the goods after removal was half a melody and there was plenty of time left in the crowd—and there are always some of that class present in such occasions—for himself to whatever he wanted, or could get away with The same thing occurred at the fire of Tuesday night. A large amount of goods was carried off one man was seen to take an entire case of boots clear across the lower wharf whether he left it with it or not we do not know Another was seen to crush up Alder street with a armfull of shoes The boots are gone, the shoes gone, and numerous articles from Mr Meldrum's store are gone The chief engineer the foremen of the engines and the firemen were all engaged in putting out the fire. They couldn't remove goods nor stand guard over them after removal Neither could the owners of each particular article Men seized them and carried them where If there had been properly appointed Fire Wardens, the goods might have been more properly removed and more effectually guarded The Council should provide, without further humbugery for

RAIN APPEARS TO FOR YANKEE GIRLS.—The *Unionist* makes the following extract from a letter from W L Adams of Oregon, to Mr. Craig, of Salem, wherein he says that this, his appeal to the Yankee girls It is quite fruitful philosophic: "Why stand ye here idle when mixed fare to California has been reduced to $153 and that Oregon Washington, and California offer such inducements to female emigrants? * * * * I am a witness to the fact that many men in Oregon have come to ruin and position, have been compelled in consequence to roll up their sleeves, dive into the kitchen, bake, bake oven, etc., simply because no one would be kind to do the necessary work for love or money. I have seen those men make, the suds fly, slinging pots and kettles, and washing the dish cloth in a way that would astonish the sportiest in Chili, if it didn't the Yankee women in New England. In vain did these men appeal to their labors, strengthen up over the wash tub, wipe their dirty linen in disgust, and stretching back the kinks of the towards around the unaccustomed [illegible] in New England, utter the Macedonian cry, Come over and help us." We perfectly agree with the writer in one thing—we'd rather see a Yankee girl "drive" anywhere than to do it yourself. So we say to the girls, "Come over and help us"!

The bark *Hattie C Besse*, Besse, Master, cleared at 10 o'clock last evening from San Francisco, for sailed August 28th, arrived at and passed the Heads Sept 30th. Experienced south-west winds and calms and baffling during the first week out, for last part of the time with strong north-west winds The following is her list: with number of packages to each 50 bbls H & M 70; Bell & Co 596 bbls flour; R & P 1000; H W 22; M R & Co 45; Selling & F M P 54; HORN 2; Irving 21; M & Co 91; G & Co 100; Bank Wrangell 28 cases gin; 2 1076 bars of iron; HARRISON 70; H & S 28; K & B 230; K P & Bros 10. The above will discharge cargo at Abernathy's dock and then go up the river as far as Spaulding's, and from thence to finish by the 20th

CIRCUIT COURT DEADY, J —The following was the business of yesterday

J B Lamb et al, vs. G W Vaughn et al, exceptions to master's report overruled, except the one to that portion of the report allowing [illegible] affirmative relief.

MUSICAL ENTERTAINMENT.—The entertainment at Oro Fino last night attended by only a fair audience, but in itself [illegible] and choice exhibition Very many of the songs were encored and presented with great [illegible] Miss Kelley deserved warm applause Had the entertainment been advertised in such a way as to [illegible] the character, the people we [illegible], and the purpose to which it is to devote the proceeds, we doubt not the attendance would have been doubled or trebled.

CATHOLIC SERVICES.—Rev. Father Weinegar, an eminent member of the Society of Jesus, will begin a mission in this city on Sunday next, to continue for some days On Sunday the services will be at the usual hours, 7, 8, 10 o'clock, mass will be celebrated at eight and at half past seven o'clock Instruction will be given in both the English and German. The Rev Father is an eminent and well known preacher and Divine, and the exercises will be both interesting and instructive

SAILING HERE.—The bark *Lore Yankee* sailed from Portland on Saturday the 11th inst.

The [illegible] *Moses Taylor* arrived at San Francisco on Sunday the 12th. She will sail again for Portland on Saturday the 18th.

The [illegible] *Geo. S. Wright* will sail for Puget Sound and Victoria at 6 o'clock, P M, Friday next

What the *Gertrude* came in the bark *Whistler* was of the last trouble to come in on account of a strong northerly wind.

ARREST AND RECOVERY BACK.—Mr Murphy Sheriff of Baker County, arrived last evening from Walla Walla bringing Perry Herren whom he followed to that place and arrested on a charge of assault with intent to kill [illegible] charged occurred some time ago in Baker County Herren and his brother in law a Mr Crane had a row when it is alleged Herren made the assault with a dangerous weapon

WHICH A SIGN AM GOT IT.—Some fellow the other night at Salem was seeking a sign and found Dr Lindsley's. He also took to make off with it when the Doctor seeing how things were going fired a pistol shot after the sign thief The latter taking this for a sign of [illegible] sent to get up and get [illegible] dropped the Doctor's sign and decamped in a hurried double-quick style.

PORTLAND LIBRARY.—The following new books have just been received at the Portland Library Glimpses of Pleasant Homes; Origin of the Christmas Tree The Life of John Banim by Murray Taines Ideal in Art, Painting in American Waters, by Scott Itay Home and Society by Taines Painting in France by Hamerton Taines, his Grammar, Ornament in Crests etc

ANOTHER.—Jimmy O Meara has retired from the editorial charge of the Idaho *World* on account of misapprehension—which, we suppose, means that the proprietors and editors are indisposed to become larger creditors than at present of Little Jimmy

COMPLIMENTARY TO JOHN.—The *Commercial* is very complimentary to our Celestial brethren for their efficient aid in saving goods from the burning Block Tuesday night John, no doubt, politely lifts his hat with, "Me muchee obliged."

MONTEREY.—The bark *Whistler* reported now off the bar has on board a large lot of machinery for Knapp's new saw mill at Fremontville. She will land at that place and [illegible] large that before coming to Portland.

FROM SAN FRANCISCO.—The steamer *Orizaba* brought up a big freight of merchandise—six hundred tons.

WATER MAINS.—The Portland Water Company are engaged in extending their water mains along Front street to as far north as D street This main connects with that on Main street

THE LADIES will hold a festival in the basement of the Presbyterian church this (Wednesday) evening to which the public are cordially invited to attend Ice cream will be had in abundance

MARRIED.—We see by the *Union* of 31st Rev I D Driver was married at Eagle City on the 9th inst with Miss L [illegible]

Secretary Rawlins

When the death of Secretary Rawlins was announced we were unable to refer to dates to fix the leading points in his career and we therefore now copy from an exchange the following notice of his life

All the eulogy Rawlins needs is the fact that he was Chief of Staff to Grant He was made such after the victory at Donelson and ever after was trusted and admired the more as he proved himself capable of larger and larger duties He must have known the heart of Grant as no other man knew it, and he always found it faithful to him as he was faithful to his country His legal education doubtless made him especially useful as an adviser in the political questions which arose for our Generals to deal with But his perfect reliability his tireless industry and his promptness in execution chiefly commended him and constituted one of the marvels of the war It is notable that he was a native of the Great West —one of the few who have yet achieved prominence who were born as well as bred there He was an illustrious example of its sleepless energy, its invincible resolution and its zealous patriotism His first attracted Grant's attention by a characteristic speech upon the fall of Sumter, delivered in Galena where they both then resided A lawyer by profession he was skeptical of his capacity for arms but was eager for the fight and in September 1861 was called by Grant to take the position of his Assistant Adjutant General at Cairo, with the rank of Captain He was ever after a member of Grant's military family being promoted to Major after the fall of Donelson, to Lieutenant Colonel November 1 1862 to Brig General August 11 1863 and to Major General February 24, 1865 These grades were in the volunteer service On March 31, 1865 he was made Brigadier General in the regular army and soon after was breveted as Major General, and remained Chief of Staff to Grant after the war until 1869 On the retirement of General Schofield from the War Department General Rawlins was called to the position which he has administered with his customary zeal and energy

J [illegible] A Rawlins was born in Jo Daviess county Illinois, February 18 1831 passed his early life on a farm studied law in 1854 was admitted to the bar the following year in Galena and practiced his profession there till 1861 In 1860 he was a Presidential Elector on the S Douglas ticket, and stumped his State He died September 6, 1869 only thirty eight years of age, in the full possession of his mental powers, too soon for his country but not before he had erected for himself a monument of which the maturest years might be proud President and people, with one voice will dismiss him with the verdict "Well done good and faithful servant"

THE MARYLAND DEMOCRATS.—A Washington dispatch of Sept 1st has the following

Democratic journals have been for some time past, wasting much time and space in efforts to prove that the Republican party is so disorganized that it cannot hold together much longer, that, in fact, the work of disintegration has already commenced The Democrats themselves do not appear to be better off to say nothing about Ohio, and the effect of the Rosecrans letter The dissensions in the Democratic party in Maryland, although they have not yet come to an open rupture, are so great as to alarm the old party leaders, and to threaten the loss of the State at the ensuing election Within the Democratic organization and constituting almost one half its strength, is a party known as "Progressive Democrats," who come very near the recent profession of faith by Rosecrans and who are beginning to make themselves felt in the inside workings of the party. It is well understood in Maryland that one of the most prominent and trusted Democrats in the State is but waiting a favorable opportunity to come out in favor of the Fifteenth Constitutional Amendment, and that he has a by no means insignificant portion of the Democracy with him Movements are now making which will be found to be of considerable importance by and-by, and which, in their results, will be as far as what the Blairs expected politically last July twelvemonth as it is possible to imagine

CHARACTERISTIC.—It is said by good judges that the tallest bragging on record was done by the Chicago commercial party and the "heavy men" of San Francisco at the recent match at the last named place The Chicagoans generally come out a spot ahead, because straining the warp was their normal condition Finally, in a fit of desperation, and as a last effort for the Golden Gate Ben H turned his face to the west and said

"Well, gentlemen there is the Pacific ocean we have discussed almost everything else, what do you think of that?

Chicago promptly replied

"O, that is a respectable body of water, but it don't compare with lake Michican!"—*Omaha Republican*

The following is a Hunghah account of the boat race London—d P M—The Hoxfords and hit half their hown way 'eading hoff the 'Arvards from the start Simmons was hevidently hagitated, and pulled a nervous hoar, and Lyring hocked 'ot hon haccount hoff the boil, but hall the hothers pulled heavenly

It his to be 'oped that this friendly tug will 'asten the settlement of the Halabama affair

NASBY.

MR. NASBY RECEIVES A LETTER FROM HIS OLD AND STEADFAST FRIEND, DEACON POGRAM, IN WHICH THE DEACON SETS FORTH THE CONDITION OF AFFAIRS AT T'E CORNERS.

PETER'S TAVERN, HOLMES CO., O.,
August 22, 1869

The followin epistle reached me yesterday. I received it with mingled emoshuns. Ez I gazed at the familiar stamp onto the envelope, which I had yoosed so many times, I kissed it in extasy—ez I thot it was indicted onto the paper by the hand uv a niger, indignation seezed me. But passin this, I opened the envelope and read as follows:

CONFEDERATE X ROADS,
(Wich is in the State uv Kentucky,)
August the 19th, 1869.

MY DEAR, DEAR FRIEND:—Absence, it is said, conkers love, but that wont work in yonr case. I had tried to forget you, and had well nigh succeeded, but in overhaulin some papers yesterday, I happened to come across some of yoor notes uv hand for small amounts borrowed uv me at different times, and I realized to wunst the force of the old line:

"The lost to site, to memry dear."

And I must out into a flood uv teers. But enuff uv this. I jest out to give yoo the news uv the Corners.

Crops is a totle failyoor here. The season hez been favorable, but we hev bin so entirely without labor that we put in but very little seed. At the time we ought to hev hed our corn plantid, Issaker Gavitt, Kernel Mopeller, Elder Pennibacker and our sons wuz scourin the country to get enuff niggers to plant for us, but ez they each hed land uv their own, they wooden't do it. So uv course there waz none uv any account put in. The little that wuz put in wont amount to nothin, ez we coodent get no niggers to tend it, during the growin season and the weeds took possession uv it entirely. Joe Bigler sejested that ef we'd spend half the time plantin uv it that we did holdin meetins to devize ways to get nigger labor, we'd hev a bustin crop. But yoo know Josef; he's lost carikter; he works with his own hands. One uv the most tetchin sites that I ever beheld wuz at Bascom's early in May, jist after our committee returned from a fruitless search for hands to do our plantin. The entire Corners wuz present; but there wuz a settled gloom onto their faces wich even the refreshments they wuz consooming coodent entirely dissipate. They wuz grooped about the bar-room ez yoosual. Elder Pennibacker wuz leanin on a chair with his back to a barrel; Issaker Gavitt wuz on his back on a table in the corner, and the others wuz a sittin on kegs in various parts uv the room.

"Wo is us!" sighed the Elder, puttin his feet onto a keg, that he mite rest easier, and pensively squirtin tobacco jooce at a fly on the wall opposite, "whor iz the labor to plant the corn? We shel starve."

"Jest" sighed the Deakin, shiftin himself to get so that he cood cock his feet agin the wall. "Alas! the minits is creepin on, day succeeds day, and no corn in yet."

"Yes," replied Issaker Gavitt, rollin over onto his belly, and higrin hisself up onto his elbows, "this is the froots uv Ablishmism. Ten years ago when we hed our niggers we hed our corn all in by this time, and wuz ready to put em to plowin on it out. Now that we are dependent onto our labor——"

And Issaker groaned and rolled over onto his hand.

And so we sot and mourned.

The result of wich is, that there aint an acre uv corn in the entire section. Wood that the Ablishmists, which brot all this onto us cood see the room they hev wrought.

The prevailin topic of discussion at the corners, since we last writ you, is how to get rid of the trouble with Pollock and the Ablinn frend uv hizzen who lives in Springfield, Illinoy, the rastin place of Ole Bowman Spoffler, A. Lincoln, grown pikter, the hoop question. You remember three years ago this Corporashen issued its bonds to the amount of $20,000, for $2,000 to be paid in each year for 10 years, when it shood be wiped out. It wuz to grade the road between the Corners and Bascom, Scioto county, ez we to receive the money on the w[illegible] in issued bonds bearin [illegible] per cent. per annum, both in[illegible] payable twenty-five years. These bonds [illegible] Pollock and his frend uv [illegible].

Last year we paid the int[illegible] on these bonds, but this year the people felt that the burden wuz too heavy. They could not reconcile themselves to this idea uv wealth to support in idleness, the blooted bondholders, and the people hammered resin it. What to do we didn't know, till finally Elder Pennibacker, who duz now my paper regularly, remarked: "Brudder Pye got it." He had been readin the Dimocratic proposition to tax bonds, and a life dawned onto him.

"We'll tax the bonds of Pollock & I" said the Elder, "and thus relieve ourselves uv this threadom to the money-power. Thank Heaven the people hev'nt yet parted with all their power."

The sejestion was acted onto wunst. The Council wuz assembled, and by a yoonanymous vote an ordinance wuz passed levying a tax uv eight cents onto the dollar on all bonds issood by the corporashun for money borrowed uv all sorts.

Bolinor wuz away when the ordinance wuz passed, and it so happened that he returned the very day that his interest wuz due. Immejitly he proceeded to the Trezzer's office, wich is Captin McPelter's with his coopons. Captin McPelter received him blandly, and pullin the coopons away, tendered him in loo thereof a receipt for $320 taxes on them sed bonds.

"Wat is this?" ejaculated the astonished Pollock.

"Taxes," returned McPelter, smilinly. "We hev assessed a tax onto our bonds uv eight cents onto the dollar, wich, it happens, is just what yoor interest is. We skorn repudiation—we shel pay principal and interest—but we hev the rite to tax bonds and tax'on we will."

"Is the tax eight cents on the dollar on all bonds uv the corporashen?" asked Pollock.

"Treely it is," sed McPelter.

"I hold also the bonds issood a year before these, for findin a lock-up, but wich only bear six per cent. The tax pays the interest and two per cent. over—what will you do with that trooant cash?"

"Do with it?" exclaimed Mopelter, "Why, we shall apply it to the payment uv the principal, uv course. The entire revenoo uv the corporashen is pledged to the extingnishment uv its dooat, and we shal not be recreant to our trust."

Pollock went away, but McPelter had a new idea. He immejitly called the Council together; and sejested that the tax on the bonds ought to be twelve instead uv eight per cent., ez that tax would not only pay the interest on the 8 percent. bonds but would extinguish the bonds themselves. The six per cent. bonds would not only be eaten up, but would leave Pollock in debt to the corporashen long before they wuz due. The way uv escape from our troubles wuz so very plain that the Council to wunst acceded to it; and notis wuz given Pollock uv the new ackshen.

Promptly the craven wretch started to sell the bonds to the city at half their face, but the proposition wuz rejected with skorn. The Council passed a resolooshun rebookin him for intimatin that the Corners, wood not live up to its obligations.

"Ez much ez we loathe yoo," remarked Elder Pennibacker, the Municipal President, "we shall pay yoor bonds dollar for dollar, principal and interest—requiring yoo, however, to bear sich taxation as may be levied onto yoo."

"But az the tax eats up both interest and principal, what do I get for my money?" askt the stiff-nekt man.

"The protection of our lawal" thundered Pennibacker.

The people wuz so indignant at this Ablianist meddler for his objection to so skitable a proceedin that they mobbed his store and wood hev hung him but for the interference uv Joe Bigler, who is allus where he aint wantid. Ez it wuz he wuz arrested for breedin disturbances and fined $20. He tendered in payment uv his fine a corporashen bond, but the Justis refoozed, very properly, to take it, and held him until he shelled out a greenback from his ill-gotten gains.

Pollock feels sore but we dont. Relieved from these bonds, the Corners will hev no taxes to pay, and we confidently expect a return uv the prosperity to wich we hev bin so long a stranger.

Yours with affeckshun,
ELIGER POGRAM.

P. S.—Ef you get into a good thing, and kin spare it, do remit a pordion at least uv what you owe me. Times is tite here.
E. P.

Ez I finisht his mpvin epistle, I cood not help thankin the Lord that in one spot at least, the Domocracy practis wut tha preach. Thank Heaven for Kentucky.

THE EQUALIZER!

Treating Disease by Vacuum!

DR. H. A. BODMAN

HAVING PURCHASED HADFIELD'S EQUALIZER and the Patent Right for Multnomah county, would respectfully inform his friends and the public generally that he is prepared to treat successfully those Chronic cases on whom all other means of cure have failed.

Having used the Instrument in connection with his former practice for about three months, he is satisfied that it will accomplish all that is claimed for it in curing Chronic Disease. He does not believe in the system of *advertising* cases cured, but any number of such may be seen on view at his office, consisting principally of Rheumatism, Neuralgia, Paralysis, Curvature of the Spine, Nervous Debility, Dyspepsia, Weak Chest, Asthma, Narrow Chests, Weak Lungs, Weak Backs, Weak, Stiff and Rheumatic Limbs, Sciatica, Spasms, Epilepsy, Palsy, St. Vitus Dance, Prolapsus Uteri, Obstructed Menstruation, with all their concomitant Diseases, Impotency and all kinds of weaknesses of the Generative Organs. Spermatorrhœa confidently cured in from four to six weeks without medicine.

He uses other remedies when necessary, but the Equalizer generally performs the cure without the aid of any medicines whatever. It brings a greater supply of blood and nutrition to all weak parts, thus creating new life and tone, and health, and strength in those parts. It breaks up congestion and inflammation by equalizing the circulation throughout every part of the system.

Give it a fair trial and you will be satisfied with the results. It has been examined by thousands of physicians of all schools in Europe and America, and there has not been one dissenting voice to the correctness of the principle, all acknowledging that it is a victory in the Science of Medicine.

WHITE'S NEW MAP
OF
WASHINGTON TERRITORY!
WEST OF THE CASCADES.

OLYMPIA, W. T., May 24, 1869

THE UNDERSIGNED WOULD RESPECTFULLY solicit subscriptions to enable them to publish a MAP OF WASHINGTON TERRITORY West of the Cascades, compiled from the United States Surveys and the best and latest authorities. The size is to be four inches to each mile, making the map sixty seven by fifty one inches. In addition to the topography of the country, the map shows the extent of the Surveys, the Indian and Government Reserves, the Prairie lands, the soundings of the principal harbors, and many other particulars not given in previous maps. The Subscription Price is TEN DOLLARS; RETAIL PRICE, TWELVE DOLLARS. The map will be furnished, colored, mounted and complete, by August 1st next forwarded in March to the establishment of Colton & Co., New York, for publication.

Subscriptions may be forwarded to Joseph Cushman, Receiver Land Office, Olympia; W. C. Painter, Walla Walla; A. G. Cook, Vancouver; S. J. McCormick, Portland, who will receipt.

We call attention to the following endorsements.

HAZARD STEVENS,
CHAS. A. WHITE.

ENDORSEMENTS.

OLYMPIA, W. T., March 27, 1869.

C. A. WHITE, Esq.—*Dear Sir:* Having examined your original map, embracing that portion of Washington Territory west of the Cascade Range, I desire to add my testimony to its value. Having been engaged for a number of years in the surveys from Cape Flattery to the Head of Puget Sound, I have examined this portion of your map more critically than others, and I take pleasure in vouching for its general correctness.

This map will fill a want that has long been felt, not only among the residents of this Territory, but others, who are desirous of obtaining information of this portion of the "far West," and I trust that it will soon see it in a form suitable for general distribution.

JAS. S. LAWSON,
Asst. U. S. C. S.

We endorse the annexed opinion of Jas. S. Lawson, Esq., and will add that Mr. Chas. A. White is a practical Surveyor, and has had access to the township maps in the two Land Offices in this Territory, as also the Coast Survey charts; and we can vouch for his map of Washington Territory, west of the Cascade Range of Mountains, as being correct, and the only good map of the same territory that has been made.
